SUBJECT: MODEL M AND R COMPRESSOR, ROBERTSHAW MOTOR WINDING SENSOR
ORDERING INFORMATION

INTRODUCTION

The purpose of this bulletin was to announce the availability of Robertshaw motor winding sensors.

DISCUSSION

Prior to this time, it was necessary to order motor winding sensors for Model M and R compressors direct from Robertshaw Corporation. Due to the large number of requests received for this part, it was determined that the part should be carried in stock. This was done to insure prompt shipment of the sensors and eliminate the vendor's minimum billing requirement.

ORDERING INFORMATION

The Robertshaw motor winding sensor is part number SEN-11. This part is used on all Model M and R compressor motors, regardless of size, electrical characteristics or motor vendor.
