SUBJECT: MODEL E AND F COMPRESSOR, KLIXON MOTOR WINDING SENSOR ORDERING
INFORMATION

INTRODUCTION

The purpose of this bulletin is to announce the availability of Klixon motor winding sensors.

DISCUSSION

Prior to this time, it was necessary to order motor winding sensors for Model E and F compressors direct from Texas Instruments, Inc. Due to the large number of requests received for this part, it was determined that the part should be carried in stock. This was done to insure prompt shipment of the sensors and eliminate the vendor's minimum billing requirement.

ORDERING INFORMATION

Klixon motor winding sensors are Trane part number SEN-14. This winding sensor is used on all Model E and F compressor motors, regardless of size, electrical characteristics or motor vendor.
